

FOUNDATION MODULE

*Client Information;  
the core of CIMSability*

CIMS*ability*

## Core Features include:

- **A Comprehensive Client Database;** stores and manages client information
- **Progress Notes;** client support needs and evidence are quickly and accurately recorded
- **Reminders and Flags;** alert all staff to pertinent information and assign client related tasks to yourself and others
- **Document Management;** scan, upload, edit and save documents

The screenshot displays the CIMSability software interface. The top navigation bar includes tabs for Clients, Staff, Employees, Jobs, Contacts, Wage Assessment, Rostering, Reminders, Reports, NSW Disability MDS Export, and Configure. The left sidebar shows a search bar and a tree view with categories like New Client, Flags, Favourites, Unassigned, Exited, Business Service, Residential Service, Community Access, Community Support, Employment Services, and Day Programs. The main content area shows details for 'Thomas Training', including a photo, address (45 Bruce St, East Maitland NSW 2323), phone numbers, date of birth (15/11/1965), and age (46). It also lists primary and other disabilities (Intellectual, Speech) and a table of contacts.

Contact Type	Name	Relationship	Preferred Contact Method	Service

Key Worker	Lynn Young			New Business

Navigate Client Data, Notes and Evidence

The Vision behind the CIMSability application was that of the Mai-Wel Group, one of the Hunter Valley's largest Disability Service Providers.

- **Security;** restrict access to client information based on the user as well as control access to certain screens and functions of the software
- **A Client Dashboard;** design your own client dashboards to bring pertinent data to the forefront of the user experience
- **An Advanced Search Engine;** find individual records quick & easy by searching on client name and ID fields
- **Client Risk Profiles;** create templates for client risk profiles. Configure the overall risk based on severity & likelihood and colour code the outcomes for easy to read assessments
